

# F U N D I N G

Funding for this project comes from 3 sources. The Building Excellent Schools Today (BEST) grant funded just over 43% of the projects cost. The Dolores community passed a bond covering over half of the remaining costs, and the Dolores School District provided the remainder from reserves.

See the funding table below for details.

Best Grant:	\$2.67 million
School Bond:	\$3.47 million
Dolores School District from reserves:	\$750,000

### BEST GRANT BOND ELECTION

The Building Excellent Schools Today (BEST) grant we received in 2012 combined with our school bond and district savings has afforded us the ability to produce high quality school buildings for our high performing students. We are very appreciative of our community support for this building project that will provide our students superior learning environments for many more generations.

Please visit our website at [doloresschools.org](http://doloresschools.org) and click on the "Construction" link for more detailed information and photos of the progress.

Thank you for your support,  
 Scott Cooper, Superintendent
