

NOTE: Colorado school boards are required by law to adopt a policy on this subject if they have more than one school or program serving any given grade level. For districts in which these provisions apply, the law contains some specific direction as to the policy content or language. This sample policy contains the content/language that CASB believes best meets the intent of the law. However, the board should consult with its own legal counsel to determine appropriate language that meets local circumstances and needs.

Intra-District Choice/Open Enrollment

Because this district does not have more than one school or program serving any given grade level, intra-district choice provisions in state law are inapplicable and hence not contained in Board policy.
