

Student Fund-Raising Activities

In general, the Board disapproves of fund-raising in the community by students for school activities. Especially discouraged is the sale of goods produced by companies for profit, such as magazines and candy.

Exceptions to the policy shall be:

1. Sale of tickets to scheduled sanctioned school activities approved by principal and or superintendent
2. Sale of advertising space in school publications as authorized by the Board.
3. An annual fund-raising activity, approved by the high school principal, and designated as a "senior project."
4. Certain fund-raising for charitable purposes or of benefit to the school or community. Examples might be American Field Service activities, the UNESCO Children's Fund or scholarships funds. However, such proposals must be individually approved by the building principal and superintendent.
5. Funds that are collected through student fundraisers will be turned into the district office within 72 hours of collection by the sponsor.
6. A purchase order will be used for all purchases and expenditures using student funds.

ADOPTED: February 22, 1996

REVISED: May 2000

CROSS REF.: JP, Student Donations and Gifts
